By: /s/ Lindsay A. Rosenwald, M.D. Lindsay A. Rosenwald, M.D. Chairman, President and Chief Executive Officer

Fortress Biotech Reports Record Third Quarter 2021 Financial Results and Recent Corporate Highlights

Net revenue for third quarter of 2021 increased 123% year-over-year to \$21.1 million, a quarterly record

Journey Medical Corporation, a Fortress partner company, launched its \$35.2 million initial public offering

AstraZeneca acquired Caelum Biosciences; Fortress received \$56.9 million upfront

Rolling NDA submission for CUTX-101 for the treatment of Menkes disease is expected to be initiated in the fourth quarter of 2021

Top-line results from registration-enabling study of cosibelimab in metastatic cutaneous squamous cell carcinoma expected around year-end 2021

New York, NY – November 15, 2021 – Fortress Biotech, Inc. (NASDAQ: FBIO) ("Fortress"), an innovative biopharmaceutical company focused on acquiring, developing and commercializing or monetizing promising biopharmaceutical products and product candidates cost-effectively, today announced financial results and recent corporate highlights for the third quarter ended September 30, 2021.

Lindsay A. Rosenwald, M.D., Fortress' Chairman and Chief Executive Officer, said, "Fortress and our partner companies continue to achieve significant clinical and corporate milestones as we develop new treatment options for patients in need and create long-term value for our shareholders. We attained a new quarterly record for net revenue, \$21.1 million, which is an increase of 123% year-over-year. Journey Medical Corporation ("Journey"), our partner company, launched its initial public offering ("IPO") of 3,520,000 shares at \$10.00 per share for gross proceeds of \$35.2 million. Additionally, AstraZeneca's Alexion acquired Caelum Biosciences, Inc. ("Caelum") a company founded by Fortress, for an upfront payment of approximately \$150 million paid to Caelum shareholders, of which approximately \$56.9 million was paid to Fortress.¹ The agreement also provides for additional contingent payments to Caelum stockholders totaling up to \$350 million, payable upon the achievement of regulatory and commercial milestones. Fortress is eligible to receive 42.4% of all proceeds from the transaction, totaling up to approximately \$12 million. Our CAR T cell therapy portfolio continues to advance, with a \$2 million grant awarded by the National Cancer Institute ("NCI") to partially fund our Mustang Bio, Inc. ("Mustang Bio")-sponsored Phase 1/2 trial of MB-106, a CD20-targeted, autologous CAR T cell therapy for patients with relapsed or refractory B-cell non-Hodgkin lymphomas ("NHL") or chronic lymphocytic leukemia ("CLL"). Finally, we announced positive data from two completed pivotal studies in patients with Menkes disease treated with CUTX-101 at the 2021 American Academy of Pediatrics National Conference & Exhibition."

Dr. Rosenwald continued, "Looking ahead, we anticipate continued regulatory and clinical progress including initiating the rolling submission of the new drug application ("NDA") for CUTX-101 for the treatment of Menkes disease to the U.S. Food and Drug Administration ("FDA") later this quarter and reporting top-line results from the registration-enabling study of cosibelimab in metastatic cutaneous squamous cell carcinoma around year-end. We also look forward to the upcoming data presentations of MB-106 and AL amyloidosis treatment CAEL-101 at the American Society of Hematology Annual Meeting ("ASH2021")."

¹ In each case, figures are net of miscellaneous transcation expenses and a 10% holdback for an indemnification escrow.

Recent Corporate Highlights²:

Marketed Dermatology Products and Product Candidates

- · Journey, our partner company, markets seven prescription dermatology products.
- Our products generated net revenues of \$19.6 million for the third quarter of 2021, compared to net revenues of \$9.4 million for the third quarter of 2020.
- In July 2021, Journey completed its final closings under the Cumulative Convertible Class A Preferred Stock Offering (the "Preferred Offering"), issuing an aggregate of 758,680 preferred shares at a price of \$25.00 per share, raising approximately \$19.0 million in gross proceeds, and after deducting commissions, fees and expenses, receiving approximately \$17.0 million in net proceeds. These shares converted into Journey common stock upon the IPO.
- On November 12, 2021, Journey launched its IPO of 3,520,000 shares of its common stock at \$10.00 per share, totaling \$35.2 million in gross proceeds, and, after deducting underwriting discounts, and estimated fees and expenses, is expected to receive approximately \$31.4 million in net proceeds. Journey Medical's common stock began trading on the Nasdaq Capital Market on November 12, 2021, under the ticker symbol "DERM." The IPO is expected to close on November 16, 2021, subject to customary closing conditions.
- Journey intends to initiate the Phase 3 clinical program for DFD-29 for the treatment of rosacea in the fourth quarter of 2021.
- · Journey intends to launch one additional prescription product in the first half of 2022.

CUTX-101 (Copper Histidinate for Menkes disease)

- · We expect to initiate the rolling submission of the NDA, under its Breakthrough Designation, for CUTX-101 to the FDA this quarter.
- In October 2021, we announced positive results from an efficacy and safety analysis of data integrated from two completed pivotal studies in patients with Menkes disease treated with CUTX-101, copper histidinate (CuHis). These data were presented as a <u>virtual poster</u> at the 2021 American Academy of Pediatrics National Conference & Exhibition.
- · CUTX-101 was sourced by Fortress and is currently in development at our partner company, Cyprium Therapeutics, Inc.

CAEL-101 (Light Chain Fibril-reactive Monoclonal Antibody for AL Amyloidosis)

On October 5, 2021, AstraZeneca's Alexion acquired Caelum, a company founded by Fortress, for an upfront payment of approximately \$150 million paid to Caelum shareholders, of which approximately \$56.9 million was paid to Fortress, net of the ten percent, 24-month escrow holdback amount and other miscellaneous transaction expenses. The agreement also provides for additional potential payments to Caelum shareholders totaling up to \$350 million, payable upon the achievement of regulatory and commercial milestones. Fortress is eligible to receive 42.4% of all proceeds of the transaction, totaling up to approximately \$212 million.

- CAEL-101 data were selected for presentation at ASH2021 scheduled to take place in December of 2021. Abstracts can be viewed online through the ASH2021 website <u>here</u>.
- There are two ongoing Phase 3 studies of CAEL-101 for AL amyloidosis.
- CAEL-101 was sourced by Fortress in 2017 and was developed by Caelum until Caelum was acquired by AstraZeneca on October 5, 2021.

² Includes product candidates in development at Fortress, majority-owned and controlled partners and partners in which Fortress holds significant minority ownership positions. As used herein, the words "we", "us" and "our" may refer to Fortress individually or together with our affiliates and partners, as dictated by context.

Cosibelimab (formerly CK-301, an anti-PD-L1 antibody)

- The registration-enabling study in metastatic cutaneous squamous cell carcinoma is fully enrolled, and we are on track to report top-line results around year-end 2021.
 Upon a successful outcome, Checkpoint Therapeutics, Inc. ("Checkpoint") intends to submit a Biologics License Application ("BLA")
- for cosibelimab in 2022, followed shortly thereafter by a Marketing Authorization Application submission in Europe. With a potentially favorable safety profile versus anti-PD-1 therapy and a plan to commercialize at a substantially lower price, we believe cosibelimab has the potential to be a market disruptive product in the \$25 billion and growing PD-(L)1 class.
- A Phase 3 registration-enabling trial is planned to begin in first-line metastatic non-small cell lung cancer ("NSCLC") in the fourth quarter of 2021.
- Cosibelimab was sourced by Fortress and is currently in development at our partner company, Checkpoint.

MB-106 (CD20-targeted CAR T Cell Therapy)

- In November 2021, we announced that MB-106 data were selected for presentation at ASH2021 scheduled to take place in December 2021. Dr. Mazyar Shadman of
 Fred Hutchinson Cancer Research Center will present updated interim data from the ongoing Phase 1/2 clinical trial for NHL and CLL. A copy of the abstract can be
 viewed online through the ASH2021 website here.
- Also in November 2021, we announced that Mustang Bio was awarded a grant of approximately \$2 million from NCI of the National Institutes of Health. This two-year
 award will partially fund the Mustang-sponsored multicenter trial to assess the safety, tolerability and efficacy of MB-106, a CD20-targeted, autologous CAR T cell
 therapy for patients with relapsed or refractory B-cell NHL or CLL.
- MB-106 was sourced by Fortress and is currently in development at our partner company, Mustang Bio.

MB-101 (IL13Ra2-targeted CAR T Cell Therapy)

- In October 2021, Christine Brown, Ph.D., Deputy Director, T Cell Therapeutics Research Laboratory and The Heritage Provider Network Professor in Immunotherapy at City of Hope, presented updated Phase 1 clinical data regarding MB-101 (IL13Rα2-targeted CAR T cells) for the treatment of glioblastoma at two scientific conferences, the First Annual Conference on CNS Clinical Trials, co-sponsored by the Society for Neuro-Oncology and American Society of Clinical Oncology and the American Association for Cancer Research Virtual Special Conference: Brain Cancer.
- MB-101 was sourced by Fortress and is currently in development at our partner company, Mustang Bio.

Novel CAR T Technology

- In August 2021, we announced an exclusive license agreement with Mayo Clinic for a novel technology to create *in vivo* CAR T cells that may be able to transform the administration of CAR T therapies and has the potential to be used as an off-the-shelf therapy.
- The novel CAR T technology was sourced by Fortress and is currently in development at our partner company, Mustang Bio.

MB-107 and MB-207 (Lentiviral Gene Therapies for X-linked Severe Combined Immunodeficiency ("XSCID"))

- In August 2021, we announced that the European Medicines Agency ("EMA") granted Priority Medicines ("PRIME") designation to MB-107, a lentiviral gene therapy for the treatment of XSCID in newly diagnosed infants, also known as bubble boy disease.
- MB-107 and MB-207 were sourced by Fortress and are currently in development at our partner company, Mustang Bio.

Ex Vivo Lentiviral Gene Therapy for RAG1 Severe Combined Immunodeficiency ("RAG1-SCID")

- Last week, we announced the execution of an exclusive license agreement with Leiden University Medical Centre for a first-in-classex vivo lentiviral gene therapy for the treatment of RAG1-SCID.
- The ex vivo lentiviral gene therapy was sourced by Fortress and is currently in development at our partner company, Mustang Bio.

Financial Results:

To assist our stockholders in understanding our company, we have prepared non-GAAP financial results for the three months ended September 30, 2021 and 2020. These results exclude the operations of our three partner companies that were public at September 30, 2021: Avenue, Checkpoint and Mustang Bio. The goal in providing these non-GAAP financial metrics is to highlight the financial results of Fortress' core operations, which comprise our commercial-stage business, our privately held development-stage entities, as well as our business development and finance functions.

- As of September 30, 2021, Fortress' consolidated cash, cash equivalents and restricted cash totaled \$254.4 million, compared to \$235.0 million as of December 31, 2020, an increase of \$19.4 million year-to-date.
- On a GAAP basis, Fortress' net revenue totaled \$21.1 million for the third quarter of 2021, which included \$19.6 million in net revenue generated from our marketed dermatology products. This compares to net revenue totaling \$9.5 million for the third quarter of 2020, which included \$9.4 million in net revenue generated from our marketed dermatology products.
- On a GAAP basis, consolidated research and development expenses, including license acquisitions of \$0.7 million, were \$28.1 million for the third quarter of 2021, compared to consolidated research and development expenses, including license acquisitions of \$0.5 million, totaling \$13.8 million for the third quarter of 2020. On a non-GAAP basis, research and development expenses including license acquisitions were \$3.8 million for the third quarter of 2021, compared to research and development expenses including license acquisitions for the third quarter of 2021, compared to research and development expenses including license acquisitions for the third quarter of 2021, compared to research and development expenses including \$2.8 million for third quarter of 2020.

- On a GAAP basis, consolidated selling, general and administrative expenses were \$22.2 million for the third quarter of 2021, compared to \$15.4 million for the third quarter of 2020. On a non-GAAP basis, consolidated selling, general and administrative expenses were \$17.6 million, of which \$10.8 million is attributed to Journey, for the third quarter of 2021, compared to \$11.6 million, of which \$5.8 million is attributed to Journey, for the third quarter of 2020.
- On a GAAP basis, consolidated net loss attributable to common stockholders was \$(20.8) million, or \$(0.26) per share, for the third quarter of 2021, compared to consolidated net loss attributable to common stockholders of \$(15.5) million, or \$(0.20) per share for the third quarter of 2020.
- Fortress' non-GAAP income attributable to common stockholders was \$43.7 million, which includes the partial realization of Fortress' investment in Caelum, or \$0.54 per share, for the third quarter of 2021, compared to Fortress' non-GAAP loss attributable to common stockholders of \$(5.2) million, or \$(0.07) per share, for the third quarter of 2020.
- · The tables below have more information.

Use of Non-GAAP Measures:

In addition to the GAAP financial measures as presented in our Form 10-Q that will be filed with the Securities and Exchange Commission ("SEC") on November 15, 2021, the Company has, in this press release, included certain non-GAAP measurements. The non-GAAP net income (loss) attributable to common stockholders is defined by the Company as GAAP net income (loss) attributable to common stockholders, less net losses attributable to common stockholders from our public partner companies Avenue, Checkpoint and Mustang Bio. In addition, the Company has also provided a Fortress non-GAAP loss attributable to common stockholders which is a modified EBITDA calculation that starts with the non-GAAP income (loss) attributable to common stockholders and removes stock-based compensation expense, non-cash interest expense, amortization of licenses and debt discount, changes in fair values of investment, changes in fair value of derivative liability, Qbrexza inventory step-up and depreciation expense. The Company included the partial realization of gain in connection with the exercise of the Caelum option.

Management believes use of these non-GAAP measures provide meaningful supplemental information regarding the Company's performance because (i) it allows for greater transparency with respect to key measures used by management in its financial and operational decision-making, (ii) it excludes the impact of non-cash or, when specified, non-recurring items that are not directly attributable to the Company's core operating performance and that may obscure trends in the Company's core operating performance and (iii) it is used by institutional investors and the analyst community to help analyze the Company's results. However, non-GAAP income (loss) attributable to common stockholders and any other non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, or superior to, the corresponding measures calculated in accordance with GAAP. Further, non-GAAP financial measures used by the Company and the manner in which they are calculated may differ from the non-GAAP financial measures or the calculations of the same non-GAAP financial measures used by other companies, including the Company's competitors.

The tables below provide a reconciliation from GAAP to non-GAAP measures:

	For the three Septem			For the nine months ended September 30,				
(\$ in thousands except for share and per share amounts)	2021	2020			2021		2020

About Fortress Biotech

Fortress Biotech, Inc. ("Fortress") is an innovative biopharmaceutical company that was ranked in Deloitte's 2019 and 2020 Technology Fast 500[™], annual rankings of the fastest-growing North American companies in the technology, media, telecommunications, life sciences and energy tech sectors, based on percentages of fiscal year revenue growth over three-year periods. Fortress is focused on acquiring, developing and commercializing high-potential marketed and development-stage drugs and drug candidates. The company has seven marketed prescription pharmaceutical products and over 25 programs in development at Fortress, at its majority-owned and majority-controlled partners and at partners it founded and in which it holds significant minority ownership positions. Such product candidates span six large-market areas, including oncology, rare diseases and gene therapy, which allow it to create value for shareholders. Fortress advances its diversified pipeline through a streamlined operating structure that fosters efficient drug development. The Fortress model is driven by a world-class business development team that is focused on leveraging its significant biopharmaceutical industry expertise to further expand the company's portfolio of product opportunities. Fortress has established partnerships with some of the world's leading academic research institutions and biopharmaceutical companies to maximize each opportunity to its full potential, including AstraZeneca plc, City of Hope, Fred Hutchinson Cancer Research Center, St. Jude Children's Research Hospital, Nationwide Children's Hospital and Sentynl Therapeutics, Inc.
